

# KEEP IT

## My Hero Instruction manual

### My Hero 'My Hero' to Protect You in an Emergency

#### Product Characteristics

##### 1. Siren

- When in emergency, pull out the body case of My Hero, The device will blow a 90dB siren.

##### 2. Send an urgent message to an acquaintance

- If you set up the receiver as another person, an emergency message will be sent to that person automatically when you separate the cover of the device.

##### 3. Send location to acquaintances

- If you set up the location tracing function on the KeepIt App., your location will be sent to the person automatically when you separate the cover of the device.

##### 4. Automatic Recording(Audio/Video)

- When you separate the cover of the device, it will automatically start to record for 3 minutes. You can check the recorded file using the KeepIt App.  
※Recording is available by selecting only one of the audio/video functions

##### 5. loss prevention function

- You can set up the loss prevention function of your My Hero using the KeepIt App.

##### 6. Completion

- You can power down the instrument by pressing the button for more than 5 seconds.

#### Product components

#### Component Names

#### Cautions

- My Hero only works via Bluetooth communication with the KeepIt App. Mobile phone must be connected to GPS and Internet for use of emergency message service.
- My Hero is affected by communication and Internet conditions. SMS may not be sent 100%, depending on your environment.
- Due to the nature of Bluetooth, which is sensitive to a frequency band, a disconnection with a mobile phone may arise depending on the user's environment.
- This product does not have a waterproof function, which can cause a malfunction if water is permeated inside.
- When using a variety of Bluetooth products at the same time, the usage may be restricted depending on the type of smartphone.  
(The quality assurance does not apply to products that have been intentionally disassembled)
- Please be sure to use a proper battery (LR44).
- Depending on the number of SOS use, environment and individual's habits, the battery consumption rate may vary.

#### Product Warranty

- ▶ This product has been manufactured through strict quality control and technical verification.
- ▶ The manufacture warranty period is for 1 year from the date of purchase.
- ▶ Repair costs will be charged regarding mechanic failure caused by user's negligence.
- ▶ The company will not be responsible for the damages done to the product caused by the user's negligence.
- ▶ Since this product is a short-distance wireless communication product for preventing lost, it does not guarantee distant situation.
